Contacts with Watergate people have been checked out this week.

Read a message noting that the Peoples Republic of China will be opening its mission; all contacts with PRC will be coordinated with the Department of State.

Introduced [REDACTED] and outlined his plans to look into Agency requirements that OTR may want to meet.

25X1A

---- Reviewed results of the Time-Life Reading program; Channel 26 has had a TV reading series and plans to send its critiques to Ed for comparison. The cost of the program is \$4500, if we wish to buy it, and \$450 for additional tapes.

25X1A

----- Mentioned that the self-study, video-audio management tapes will be in full operation by July.

25X1A

Here Mr. Rodriguez suggested that perhaps a course in management could be structured from these tapes, with a beginning and an end, rather than perhaps a disconnected set of tapes. Action: [REDACTED]

25X1A

A group will be going to the Bureau of National Affairs Inc., on Friday to review the tapes.

----- Noted that his staff is losing two young women who handle internal admissions; one this week, the second two weeks from now; no replacements as yet.

25X1A

----- Noted the possible change in the DDO requirements for CTs. (He has had an inquiry about the possibility of getting 50 CTs in FY 75.) Estimates that he can provide 43-45 in FY 74; noted impact on BOC.

25X1A

----- "Energy Day" (Tuesday, 22 May) it was thought valuable and was well received; the afternoon session was video taped; morning speaker (three hours) not taped since the Company, Shell Oil, has a brochure that covers essentially what [REDACTED] had to say. (Here it was noted by [REDACTED] that it would be worth the effort to video tape all of the Auditorium offerings.)

25X1A

25X1A
